

Dear Community Members and Sponsors,

We want to thank you for your care and support of refugee newcomers! Due to the COVID-19 pandemic and the necessary social distancing measures in place, we recognize that volunteering to welcome and support new arrivals may look drastically different over the next few weeks/months. The safety of clients, volunteers, staff and our community members is our top priority. Please take seriously the safety recommendations in your community to slow and prevent the spread of COVID-19.

As co-sponsors, welcome teams, volunteers, and mentors there are still ways that you can offer welcome and comfort during this time. We developed this tool kit to provide you with suggestions, activities, and educational opportunities that you can do from the safety of your home during this uncertain time.

Thank you for your continued partnership and support welcoming newcomers to our community. We couldn't do this work without the support of community sponsors like you!

Blessings,

Stacey Clack
